nmoham46@asu.edu | +1 (623) 276-6016 | [LinkedIn](#) | [Github](#)

Education

MS in Software Engineering | Arizona State University, Tempe, Arizona | *August 2025 - June 2027* | *GPA : 4.0/4.0*

BE in Electronics and Communication | Anna University, Chennai, India | *August 2018 - April 2022* | *GPA: 8.5/10*

Technical Skills

C, C++, Java, Python, C#, TypeScript, Data Structures, Algorithms, Linux, Memory Management, Inter-Process Communication (IPC), Concurrency, Scheduling, SOLID Principles, MVC Architecture, REST APIs, OpenAPI Specification, Layer 2 / Layer 3 Switching and Routing, AWS (EC2, Lambda, SQS, SSM Parameter Store), Azure DevOps, Docker, Docker Compose, Vercel, CI/CD, GitHub Actions

Professional Experience

Teaching Assistant | Arizona State University | May 2026 – Present

- Assisting students with software engineering best practices in enterprise-scale development environments.
- Supporting coursework involving Agile/Scrum workflows, Git/GitHub collaboration, Continuous Integration, Unit Testing, Refactoring, and Design Patterns.
- Providing technical mentorship through debugging support, office hours, team guidance, and collaborative discussions.
- Assisting with grading, feedback, and fostering engagement in a collaborative learning environment.

Application Development Analyst | Accenture, Chennai, India | *March 2025 – August 2025*

- System Innovation: Architected and deployed an AI-powered code review tool using GitHub Copilot, decreasing code-level errors by 30% and maximizing developer productivity by 25% in a fast-paced environment.
- API Design: Engineered high-performance, flexible headless APIs to improve back-end modularity, accelerating software execution layers and project timelines by 20%.
- Mentorship & Leadership: Acted as Team Representative, taking complete ownership of core project streams from requirements to final delivery while mentoring 10+ junior developers in clean architecture best practices.

Application Development Associate | Accenture, Chennai, India | *September 2022 – March 2025*

- Backend Engineering: Managed and optimized a high-traffic SQL Server database system, fine-tuning complex production queries to eliminate concurrency bottlenecks and guarantee 99.9% uptime.
- Product Delivery: Spearheaded the end-to-end development of a large-scale commerce project from scratch, establishing modular system layers and meeting 100% of critical execution deadlines within 6 months.
- Efficiency Optimization: Implemented core backend business logic and data processing pipelines, driving a 15% increase in system efficiency through strict adherence to memory and scheduling standards.

Leadership Skills

Team Representative & Mentorship | Accenture | *March 2025 - August 2025*

- Trained and mentored new team members, ownership of the entire project stream from requirements to development, while ensuring deliverables met client expectations.
- Contributed to internal organizational initiatives to foster teamwork and community.

Academic Projects

Full-Stack Web Application | *Arizona State University* | *April 2026 - May 2026*

- Designed and deployed an AI-powered travel-planning platform using React, FastAPI, PostgreSQL, ChromaDB, and Google Gemini with scalable full-stack architecture.
- Implemented Retrieval-Augmented Generation (RAG) pipelines with ChromaDB vector storage, live knowledge ingestion, and AI-driven itinerary generation for personalized trip planning.
- Collaborated within a 5-engineer Agile team using Git branching strategies, pull requests, CI/CD workflows, Docker-based AWS deployment, and peer-reviewed development practices..

Certifications

- Microsoft Certified: Dynamics 365: Finance & Operations Apps Solution Architect Expert (*November 2024*)
- Microsoft Certified: Power Platform Developer Associate (*December 2022*)
- Microsoft Certified: Azure Fundamentals (*December 2022*)

Awards and Honours

Sparkling Star Award | Accenture | *September 2022–August 2025*

- Received for **three consecutive years** for achievements in AI-driven tools, Power Platform POCs, mentoring 10+ junior developers, fostering team growth, and delivering quality solutions with innovation.
